The clear silicone is ideal for placing over a white surface to create an easy mixed media palette where wet medium could easily be mixed together, making colors easily visible. This Silicone Mat resists slipping on any surface, and the smooth finish prevents texture transfer from clay and mixed media projects. For wet, water-based mediums, wipe up with a damp paper towel, and for solvent-based mediums, apply necessary cleaner, and wipe with paper towel. For dried mediums, scrape off with Ranger Craft Scraper, then wipe excess clean with damp paper towel.
